

## NUOVA SIMONELLI MDJ GRINDER

The global espresso standard.  
Consistent grinding shot after shot.

### FEATURES + BENEFITS

- Your silent solution – the MDJ delivers a higher capacity of ground coffee, quietly, thanks to innovative sound proofing technology and large 75mm burrs.
- Consistent dosing – not only does the MDJ give you your coffee quickly, its funnel system has been designed to make coffee powder flow from the grinding chamber smoothly. This means less residue, ensuring consistent quality, fresh coffee grind after grind.
- Great grind, better coffee – the MDJ introduces a new aeration system at the top of the grinding chamber. This keeps temperature at a constant level maintaining dose parameters and flavour profile.
- Key features – micrometric grind adjustment, clump crusher, long life burrs, portafilter hook and stable temperature grind chamber.
